Mobile Pathways, Inc. (MPI) is a newly established Veteran Owned Small Business (VOSB). Since inception, we have blazed a trail and broken new ground in the custom power mobile solutions industry.

CORPORATE STATUS: Filed as S Corp

EIN: 20-1166397

C.C.R.: Yes

DUNNS: 174409701

Cage Code: 348E0

MPI designs and manufactures customized mobile power management solutions. Our mobile communication power supplies offer versatility to support military and commercial land and airborne market segments. MPI product and production services are unmatched in the industry. We are proficient in the conception, design, prototype, testing, manufacturing, delivery and deployment of our product line. In addition, we provide onsite and offsite training and end user and administrator technical manuals.

Our engineers possess proven and extensive knowledge in developing end-to-end customized power management solutions for operations ranging from 90-264 VAC (either auto-ranging or universal input)/ 47-440Hz, 10-36 VDC, 36-75 VDC, 180-375 VDC and 250-425 VDC. MPI also have capability to design power management solutions that adhere to various Military standards such as MIL-STD-810, MIL-STD-461D/E etc. We have developed Micro-controller based customized power solution to generate 1000 watts for 100 watt RF amplifier. This power solution monitors input/output voltages and output current using opto-isolated circuits and also maintains power sequencing per customer specifications.

Our team is dynamic, creative, innovative as well as technical experts in the industry. The diversity of education, knowledge, skill-sets and experience is the foundation for our success and achievements. We value in working together as a team with our customer and vendors. MPI is committed to providing the highest level of customer satisfaction as well as timely delivery. We demonstrate our vision by adapting and implementing the latest technologies with a detailed engineering approach and innovative manufacturing.

MPI also is an expert integrator when it pertains to utilizing COTS products with GOTS & Commercial communications systems with Type-I encryption devices. MPI possess the proper Comsec account for this work at the highest level. MPI also is in the process of becoming a Type-I encryption reseller for all Government customers. See next page chart for experience and MPI communication integration capability.
