

Option CloudGate 4.0 Models:

115 x 106 x 45mm

CG0124-12135

CloudGate LTE WW Rev4

- Worldwide LTE Cat 4 Programmable Multicarrier Gateway with 3G/2G fallback
- 20 LTE bands (EMEA, Americas, Asia) including TDD bands (China)
- GPS, Glonass (active or passive)
- 2 expansion card slots
- Optional battery

115 x 106 x 45mm

CM0125-12142

CloudGate Mini

- Worldwide LTE Cat 4 Programmable Multicarrier Gateway with 3G fallback
- 20 LTE bands (EMEA, Americas, Asia) including TDD bands (China)
- GPS, Glonass (active or passive)
- Fixed I/O card: 3 GPIO (Digital/Analog), I2C, CAN bus, RS485 or RS232
- Rear expansion slot for Optional WLAN or LoRAWAN expansion card
- Optional battery

120 x 96.5 x 29mm

CM0125-12164 (without WiFi)
CM0124-12166 (with WiFi)

CloudGate Micro

- Worldwide LTE Cat 4 Programmable Multicarrier Gateway with 3G fallback
- 20 LTE bands (EMEA, Americas, Asia) including TDD bands (China)
- GPS, Glonass (active or passive)
- Optional battery or WLAN
- Optional integrated WiFi AP/Client available

120 x 96.5 x 29mm

CM0126-12161

CloudGate Nano

- Worldwide LTE Cat M1-NB1 Programmable Multicarrier Gateway with 2G fallback
- 15 LTE bands (EMEA, Americas, Asia) including Cat M1 TDD band (China)
- Serial (RS232/RS485) and M-bus master interface
- Optional battery or GPS or WLAN
